

STATEMENT IN DEFENCE OF MIGRANT RIGHTS AND HUMAN DIGNITY

The International Anti-Fascist Congress Chapter of Kenya raises its voice in unflinching solidarity with the Venezuelan migrants and all oppressed peoples unjustly imprisoned in El Salvador's carceral system under the orchestration of U.S. imperialist forces. This grotesque violation of human rights—where migrants are kidnapped, stripped of due process, and branded as “gang members” without charges, access to a lawyer, a phone call, a hearing or a trial—is a chilling reminder of the fascist tactics employed by capitalist regimes to criminalize the dispossessed.

We condemn in the strongest terms the U.S. government's collaboration with reactionary regimes to funnel migrants into prisons far from their families, legal support, or dignity. These actions are not merely “policy failures” but deliberate acts of state violence designed to terrorize migrants fleeing imperialist exploitation, economic collapse, and U.S.-backed destabilization in their homelands. To imprison them without evidence or recourse to justice is to erase their humanity—a hallmark of fascist logic.

This systemic brutality exposes the hypocrisy of a U.S. empire that claims to champion “rule of law” while shredding international conventions and human rights frameworks. The migrants' plight is inseparable from the broader capitalist machinery that sanctions nations like Venezuela, destabilizes regions, and then punishes those forced to flee its devastation.

We demand:

1. Immediate release of all migrants unlawfully detained in El Salvador and an end to their extrajudicial transfer.
2. Full transparency and accountability for the U.S. and Salvadoran governments' roles in these crimes against humanity.
3. Recognition of migrants' rights to asylum, fair trials, and protection under international law.

To our Venezuelan sisters and brothers, and to all migrants trapped in this vicious cycle of oppression: Your resistance is our resistance. Your fight for justice is woven into the global struggle against imperialism, fascism, and the capitalist systems that displace and dehumanize.

Let this be a call to action for anti-fascists, socialists, and freedom-loving peoples worldwide: Stand with the migrants! Organize, mobilize, and expose these atrocities. The chains binding one community today will be used to shackle others tomorrow. Only through collective struggle can we dismantle the structures of oppression.

The people united will never be defeated!

Release the prisoners! End imperialist persecution!

Join the fight for migrant justice! Amplify this statement! Demand action!

In solidarity,
Anti-Fascist International Kenya Chapter
