

## **STATEMENT IN DEFENSE OF PALESTINE'S RIGHT TO LIBERATION**

---

Comrades in struggle,

As the people of Palestine mark Al Quds Day—a global call to defend Jerusalem and resist Zionist apartheid—the Anti-Fascist International Kenya Chapter stands in unwavering solidarity with their unrelenting struggle for liberation. This day, born from the courage of Imam Khomeini's vision, is a beacon of defiance against imperialism, settler-colonialism, and the fascist forces that seek to erase Palestine's existence.

We salute the Palestinian people, who endure daily violence, displacement, and occupation yet remain steadfast in their resistance. The Israeli regime's relentless aggression—its apartheid walls, illegal settlements, and genocidal attacks—is a stark reminder of the imperialist machinery that sustains oppression worldwide. From the streets of Gaza to the villages of the West Bank, Palestine's fight is not just a national struggle but a global revolutionary imperative against systems that profit from bloodshed and dispossession.

We condemn:

1. Zionist apartheid and its U.S.-backed militarization, which weaponizes terror to maintain dominance.
2. The complicity of capitalist powers in normalizing Israel's crimes, from land theft to cultural erasure.
3. The silencing of Palestinian voices through censorship and propaganda.

We demand:

1. Immediate end to Israeli occupation and the dismantling of apartheid structures.
2. Right of return for all Palestinian refugees, as enshrined in international law.
3. Global solidarity to isolate Israel economically and politically.

To our Palestinian comrades: Your resistance is a flame that ignites hope for all oppressed peoples. From Kenya to Venezuela, from Cuba to South Africa, your struggle mirrors our own battles against colonialism, fascism, and exploitation. We see in your courage the spirit of Che, Lumumba, and all revolutionaries who refused to kneel.

Al Quds Day is not just a commemoration—it is a call to action. Let us amplify the Boycott, Divestment, Sanctions (BDS) movement. Let us expose the lies of “security” and “democracy” that mask Zionist aggression. Let us build a united front against imperialism, wherever it rears its head.

*Palestine will be free!*

*From the mountains of Kenya to the valleys of Palestine, we march together!*

In revolutionary solidarity,
